Indifference is the enemy of freedom

Throughout America's history, men have sacrificed life and property to establish and preserve freedom.

Freedom is the very core of the American system and, while this system is not perfect, it has worked better than any other the world has ever known. It recognizes man's natural desires to live as an individual being. It recognizes his ambitions to earn, save, own and enjoy, to the fullest, the fruits of his labor.

History has shown that when freedom is lost through carelessness and selfishness, it is seldom regained. Although freedom is God given, it is not free.
